Montessori Education for Social Change
Serving Humanity - Celebrating Solidarity

Pearls of the Day

Tuesday, 9 August 2016

Peace starts from within.

We can change our world through our children.

Let us honour the parents so that they may be able to help us take
Montessori's dream everywhere.

Nature speaks to the soul in ways that no book can.

If you do it well, it will bring joy.

Understanding the needs of the child is crucial.

A child needs an empowered mother more than she needs Montessori
materials.

Be the change you want to see in the world.

If the sky is not the limit, you do what you can with the resources you have.

Every child deserves a childhood.

Vocation - The place where the heart's deep gladness meets the world's
deep hunger.

Be the change you want to see.

Honor the parents.

Family is the source of strength.

Create a learning mind instead of an acquisitive mind.

We are a sum total of our life's experiences.

Nobody goes to therapy because they did not like their first grade teacher.

If talking, don't move and if moving, don't talk.

Many people at many places can make a change.
