Montessori Education for Social Change
Serving Humanity - Celebrating Solidarity

A 'great work' must be undertaken. An extremely important social task lies before us: actuating [man's] human kind's value, allowing him to attain the maximum development of his energies, truly preparing him to bring about a different form of human society on a higher plane

“Peace starts from within”

“We can change our world through our children”

“Let us honour the parents so that they may be able to help us take Montessori’s dream everywhere.”

Vocation - The place where the heart's deep gladness meets the world's deep hunger
