Montessori Education for Social Change
Serving Humanity - Celebrating Solidarity

Pearls of the Day

Thursday, 11 August 2016

My humanity is bound up in yours for we can only be human together.

It is often required of children that they should adjust themselves to the world, practiced and alert, but it would be more to the purpose that the world should adjust itself to children in all its dealings with them.

We have come so far, yet we have so far to go.

I am connected to humanity and I have a voice.

Peacemaker, think not forever of yourselves nor of your own generation.

Think of continuing generations, think of our children and those yet unborn whose faces are coming from beneath the ground.

Happiness, joy, learning becomes more intense when shared with one another.

We are not changing what is wrong; rather, we are building what is right.

Don't ask what the educator can do for your child but ask what you can do for your child.

Montessori is a discovery.

To spread, to reach out.

We are on a train to the future, hop on with us.

May Montessori be infectious and spread rampantly.

It is a very beautiful thing that we should learn at the very beginning.

Montessori is about self discovery.

This end is only the beginning.

Where is your bone country.

I am bursting with gratitude.

Life is beautiful with the Montessori trained environments for the teachers.

Heal the world and make it a better place for our children to live in.

Peace is a beautiful thing.

In the mind of the child, we might find the key to progress.

Those who didn't give, were the ones who didn't ask
Precision in everything even though it is all handmade.

The earth does not belong to us, we belong to the earth.

If we thought we couldn't start without being perfect we never would have
started at all
